

## **Web Corrections to** **2006 Komen Community Profile**

**Updated 4-10-2007**  
**gbrownmiller@komenoregon.org**

1. Page 102 in printed copy has been replaced on the website with added Native American data.
2. Page 43 in the Bend Regional summary – the number of Native American women aged 40-64 is 634, not 4792 as printed. Because of that change, the % of non-White & Hispanic women in the region are: Asian – 10%; Afr.Amer. – 1%; Multi/Other – 32%; Hispanic – 30% and Native American is 27%.
3. Page 41 in the Bend summary is changed to indicate that Native American women aged 40-64 are 9% of the total number of Native American women, aged 40-64 in the service area.
4. Page 48 in the Eugene Regional summary is changed in the Racial and Ethnic breakdown:  
African American =193 and American Indian = 514  
That changes the regional percentages to:  
Asian – 21%; African American – 4%; Multi/Other – 36%; Hispanic – 28%; American Indian is 11%. The service area % stay the same.
5. Page 47 is changed in the third paragraph that discusses the percentages of minority women in the region. It should read: “Multi-racial and Other is the largest group with 36%, followed by Hispanic women at 28% and Asian women at 21%. Native American women are 11% of region but only 7% of the service area.
6. Page 55 and 61 have been corrected on the website version.
